MEMORANDUM FOR: Warning Working Group Members

SUBJECT : Addendum to Agenda Circulated 28 November 1978

1. I have been asked to provide any changes that we might suggest to the NIT II(1) on warning, the text of which is given in the next paragraph. I think the deadline is so short that we will need to settle this at our meeting on Friday.

2. "II The USSR and Eastern Europe

1. How much warning of an attack can the United States expect? To what extent are Soviet active and passive measures likely to degrade warning?"
